- INTRODUCTION
- THE TARGET USER & PROBLEM
- THE PROTOTYPE
- IMPLEMENTATION
- RISKS & MITIGATIONS
- CONCLUSION & NEXT STEPS

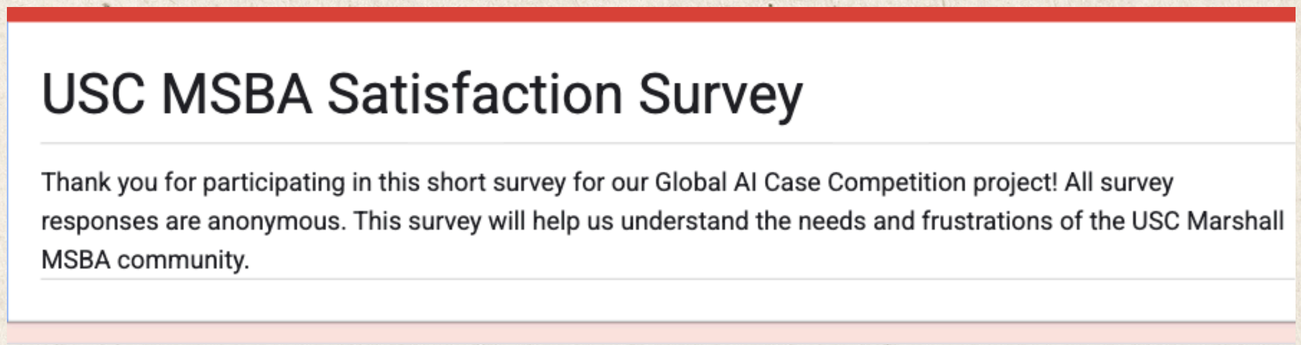
Introducing SyncSC

One platform to sync your classes, careers, and connections.

SyncSC is a data-driven, user-centered solution that:

1. **Centralizes** classes, deadlines, and events into one calendar
2. **Connects** students with peers, alumni, and recruiters
3. **Simplifies** networking and career discovery in the Trojan community

Designed With Students, For Students



USC MSBA Satisfaction Survey

Thank you for participating in this short survey for our Global AI Case Competition project! All survey responses are anonymous. This survey will help us understand the needs and frustrations of the USC Marshall MSBA community.

WHAT WE ASKED

- Demographics
- Pain Points & Challenges
- Tool Usage
- Feature Wishlist
- Engagement

WHO RESPONDED

41
Students

4
Cores

11
Countries

Meet Lola

Age: 23
Gender: Female
Nationality: Chinese descent
Occupation: 1st-year MSBA student
Interests: AI, data, business strategy, entertainment

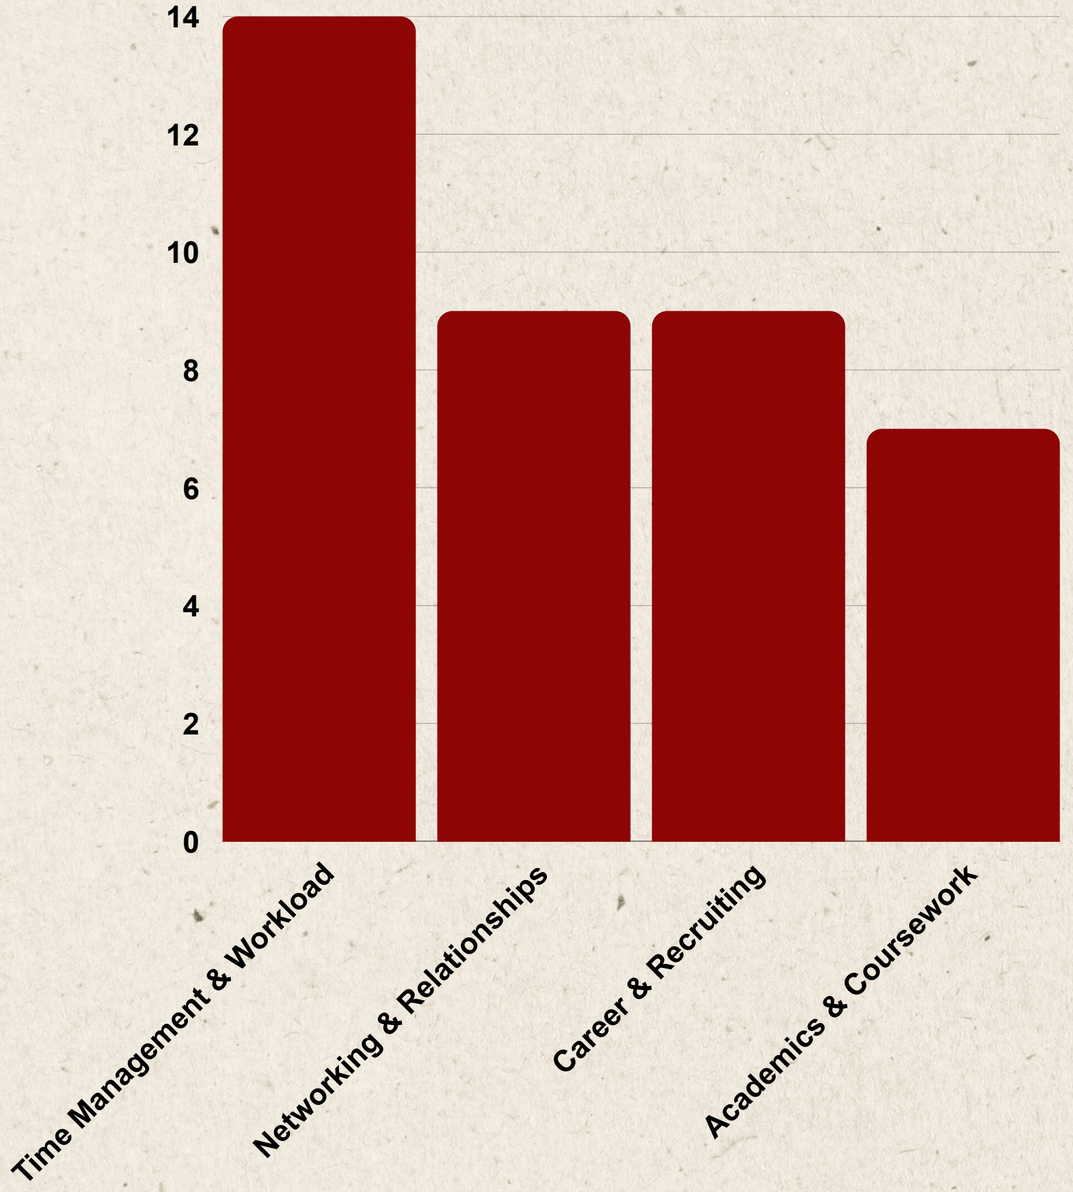
PAIN POINTS

- **Overwhelmed** (workshops, campus events, and coursework)
- **Struggling** (language barrier & cultural differences)
- **Frustrated** (scattered information across platforms)

USER IMPACT

- **Unified** (all events and deadlines in one calendar)
- **Connected** (find peers with shared values & interests)
- **Personalized** (job and event recommendations with less mental fatigue)

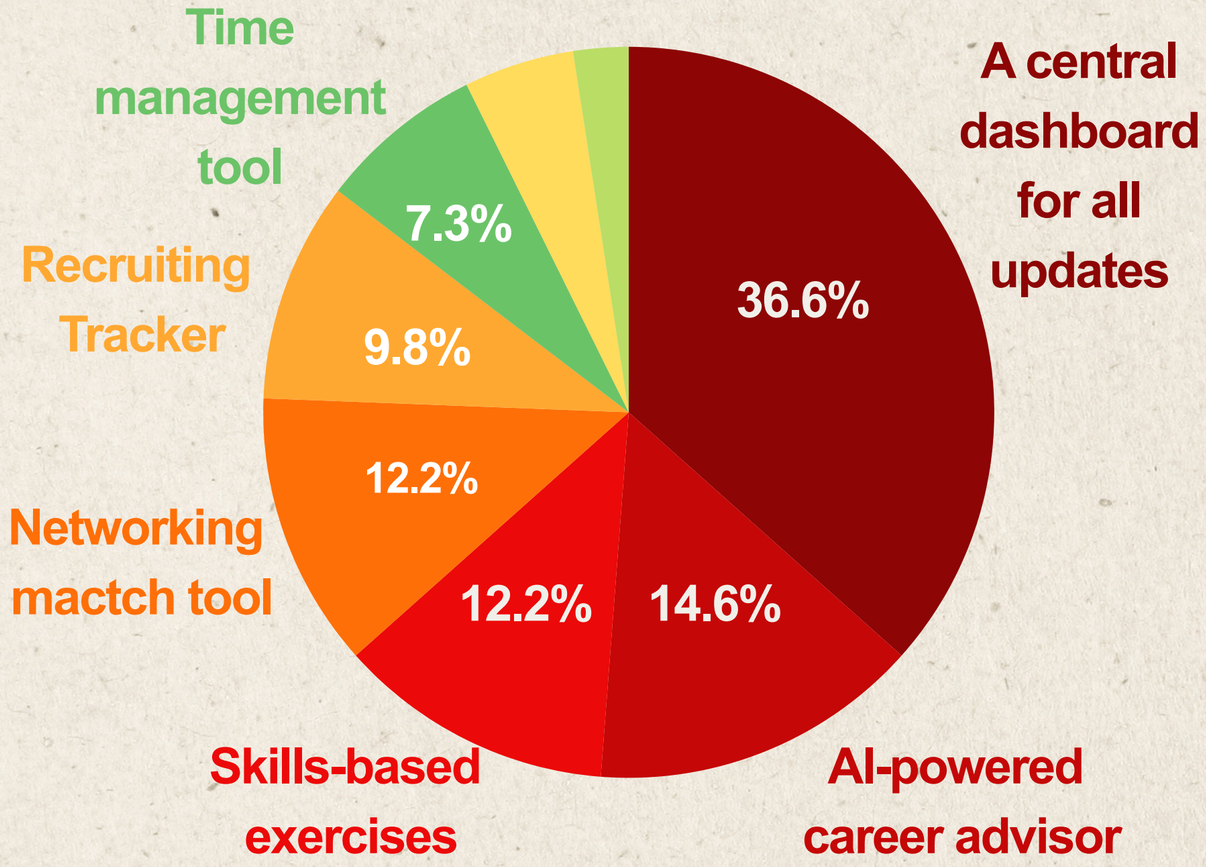
Top 3 Challenges



Time management, **networking**, and **recruiting** emerged as the 3 biggest challenges MSBA students face.

How might we streamline time management and foster connections so students can unlock their full recruiting potential?

From Challenges to Student-Driven Solutions



Students' top request was a **central dashboard** — reinforcing their need for simplicity and focus in managing time, networking, and recruiting.

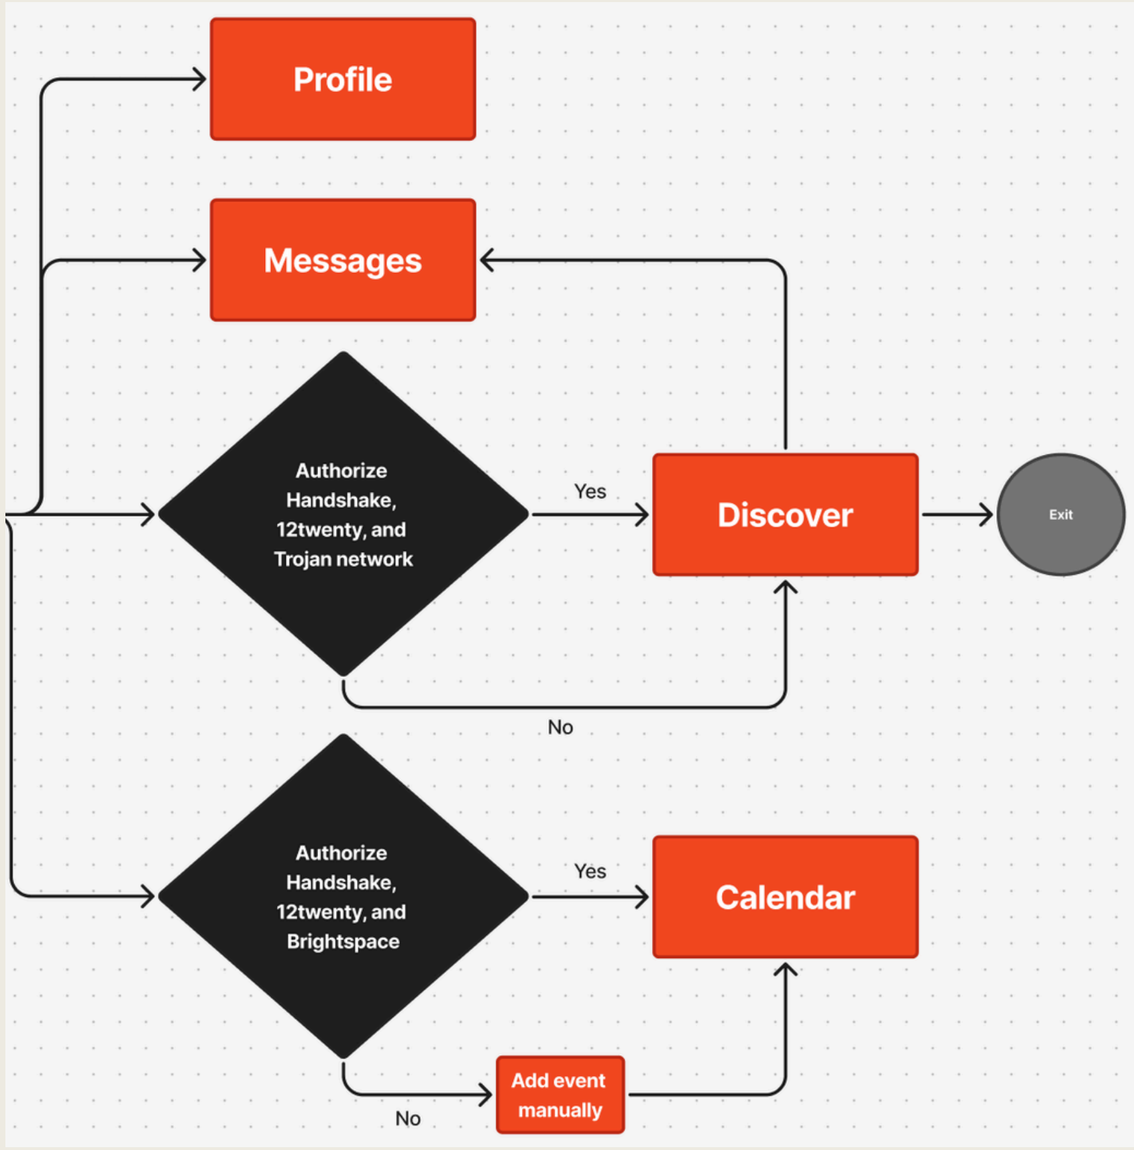
FEATURES IN

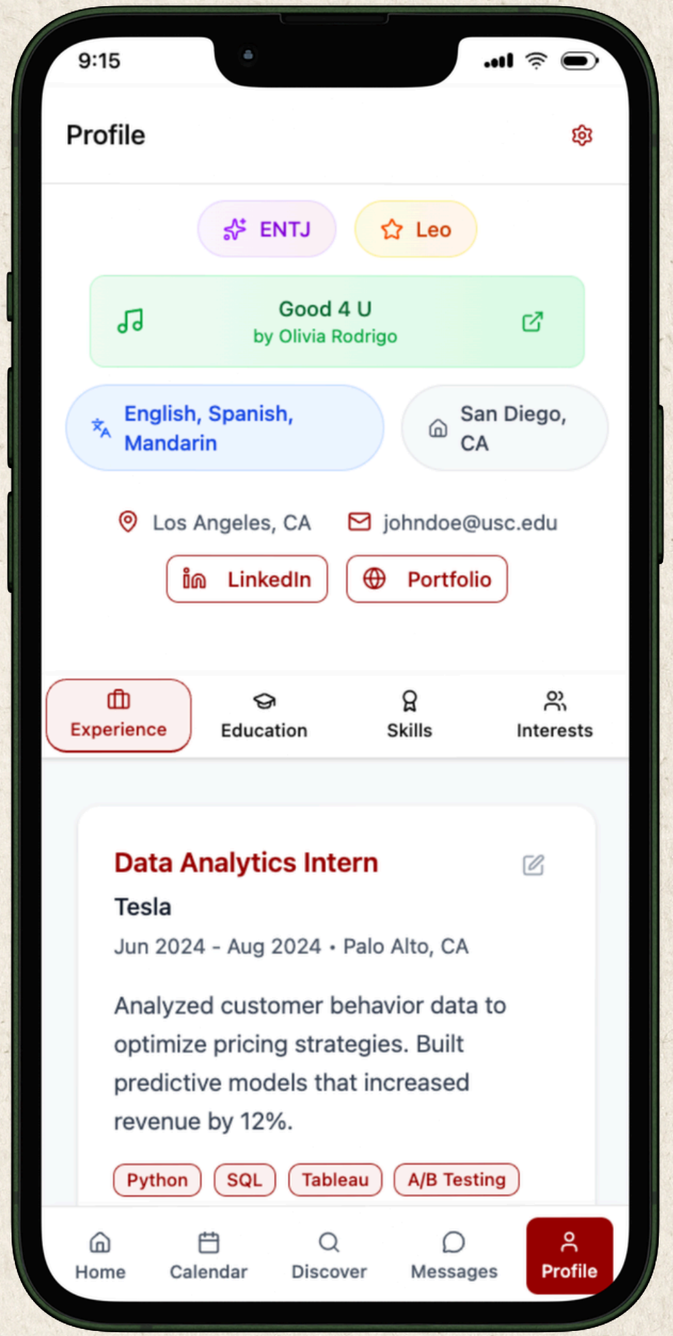
- Shared Calendar → *Time*
- Networking Match → *Networking*
- Career Hub → *Recruiting*

FEATURES OUT

- AI Time Optimizer → *Too complex*
- Recruiting Tracker → *Already exists*
- Skills Exercises → *Online*
- AI Career Advisor → *ChatGPT*

Seamless Onboarding to Connected Opportunities





One Hub. All in Sync.

Getting Into Students' Hands

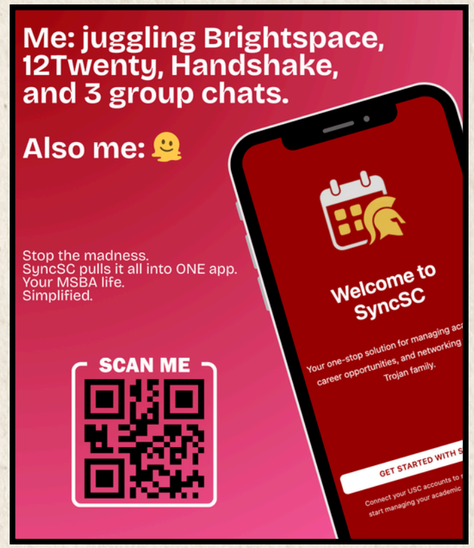
PILOT (WEEK 1):
Pilot small student group
→ Gather feedback

ROLLOUT (WEEK 2):
Campus buzz: flyers, IG launch, BASA email

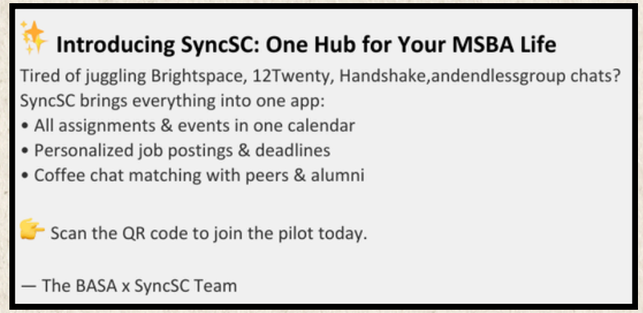
GROWTH (WEEK 3):
Expand reach:
Alumni invites via Trojan Network

SCALE (WEEK 4):
Institutional buy-in:
Faculty onboard + USC platform integration

Instagram post



Flyer for campus



BASA Email

Safeguards for Success

RISKS	MITIGATIONS
1. Unable to pull data from non-synced platforms	Enable manual imports & build APIs
2. Need to exit app to reach non-registered users	Provide guest links & embed in-app external pages
3. Concerns about personal data leakage and misuse	Apply encryption, access controls, comply with FERPA/GDPR
4. Preference for traditional apps (low trust and unfamiliarity)	Improve UI/UX & run training campaigns
5. Multiple accounts across platforms cause confusion	Restrict access to official USC email login

Moving Forward with SyncSC

Survey insights shaped an app that directly tackles MSBA students' biggest challenges.

Here's what comes next:

RUN MARKETING SURVEY

Identify top student channels

UNIFY USC EMAILS

Simplify syncing & onboarding

SECURE VENDOR ACCESS

Ensure data-sharing with Handshake, 12Twenty, Brightspace, Trojan Network

Thank You
